

NAGUMEENA UDAYAPPAN *AI & Full-Stack Developer*

 nagumeenaudayappan22@gmail.com  +91 9842726696  <https://www.linkedin.com/in/nagumeena22>
 nagumeena.vercel.app  https://leetcode.com/u/Nagumeena_22  <https://github.com/nagumeena22>

CAREER OBJECTIVE

AI & Full-Stack Developer specializing in Machine Learning, MERN stack, and data-driven applications. Seeking opportunities to build scalable software and intelligent systems using Python, Java, and modern web technologies.

EDUCATION

B.Tech - AIDS(5th sem) **CGPA-8.40**,
Kongu Engineering College

HSC(2023) **-80 per**,
RD INTERNATIONAL SCHOOL, CBSE

SSLC(2021) **-75 per**,
RD INTERNATIONAL SCHOOL, CBSE

TECH SKILLS

LANGUAGES: Java, C, Python

FRONTEND: React, HTML, CSS, JavaScript

BACKEND: Nodejs, ExpressJs

AI: MachineLearning, Deep Learning, NLP

DATABASE: MongoDB, MYSQL

AUTOMATION & TOOLS: n8n, Postman, Git, Power BI

ML LIBRARIES: ScikitLearn, Pandas, Numpy, keras, tensorflow

DSA

AREAS OF INTEREST

Mern Stack

Transfer Learning

Database Management Systems

LEADERSHIP

Nss, Junior Executive,2024-2025

AI Coding Club,
Executive Member,2024-2025

AI Coding Club, Treasurer,2025-2026

PUBLICATIONS

Enhanced Early Identification of Parkinson's Disease using Machine Learning | IEEE, Dec 2024

INTERN

Generative AI Consortium (Remote) **Jul 2024 – Dec 2024**
Built and evaluated ML pipelines in Python using Scikit-learn, including preprocessing and model tuning for crop prediction
Github:<https://github.com/nagumeena22/crop-prediction> 

Lakshmi Agency **Dec 2025-Mar 2026**
Developed a full-stack application using deep learning to detect crop diseases from images. Recommended suitable fertilizers and integrated an e-commerce module for direct purchase.
Github:<https://github.com/nagumeena22/Agro-crop> 

PROJECTS

MindGaurd
Built *MindGuard AI*, a full-stack mental health monitoring system that analyzes user journals using AI for emotion detection and risk classification. Integrated facial emotion recognition and real-time alerts for high-risk cases. Developed an admin dashboard to monitor user activity and mental health trends.
Tech Stack: React.js, Node.js, MongoDB, NLP, OpenCV, Tailwind CSS
Github:https://github.com/nagumeena22/MINDGAURD_AI 

AI POWERED E-COMMERCE• Built a MERN e-commerce platform with JWT authentication, payments, and admin dashboard. • Added an ML-based virtual try-on feature to enhance user experience.
TechStack: React, Node.js, Express, MongoDB, Render, TensorFlow/PyTorch.
Github:https://github.com/nagumeena22/ColabSphere_deployment 

Intelligent RAG-Based Document Assistant
• Built an AI-powered RAG system to query college PDFs (regulations, curriculum, syllabus) using FAISS-based semantic search and retriever pipelines.
• Integrated Hugging Face Tiny LLM for embeddings and response generation, with a React frontend for real-time interaction.
Tech Stack: React.js, Python, FAISS, Hugging Face, NLP
GitHUB:https://github.com/nagumeena22/RAG_collge_application 

COLABSPHERE• Architected RESTful APIs to ensure seamless communication between frontend and backend services; deployed the application on Vercel and Render, achieving a 40% increase in load speed and user satisfaction ratings.
Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, REST APIs, Vercel, Render.
Github:https://github.com/nagumeena22/ColabSphere_deployment 
Link:<https://colab-sphere.vercel.app> 

CERTIFICATIONS

MongoDB Associate Developer, 2026

Oracle Apex Cloud Developer, 2026

ACHIEVEMENTS

Runner,Hacksphere'26,kec

Finalist,Hackathon,sns college

Winner, Air prediction using ml model, Bannari amman Technology
